

K-LOVE is a positive, encouraging, and family friendly Christian radio station in my city. K-LOVE provides programming that I and my family enjoy listening to. This is one of the few radio stations that has the music and information that I want to listen to. K-LOVE is also listened to by many of my friends in this city and this radio station would be a terrible station to lose to another LPFM station providing other programming. I have chosen to send support to this station to keep them on the air and I know many others in my community have done so as well as this station is important to our growth and lives. K-LOVE is one of the few stations that carries up to date information and plays music of a positive and encouraging nature. This station is also family friendly which is unique in this day and age. This station needs to be allowed to continue so that there are positive alternatives on the radio.
